Shalakany has successfully negotiated and closed off a settlement deal, on behalf of its Kazakhstani foreign investor client, with the opposing party in relation to the client's investment in the Egyptian FinTech sector.

Shalakany spearheaded the negotiations with the opposing party, which began at the end of March 2022. By June 2022, a commercially acceptable settlement deal was secured for the client and was finalized and executed by both parties.

The Shalakany team handling this matter is comprised of **Muhammad Ussama** (partner, pictured), **Mahmoud El Omdah** (senior associate) and **Mohamed El Zohery** (associate).
