[Adsero](#) - Ragy Soliman & Partners assisted Telecom Egypt in signing the commercial agreement with Orange Egypt for national roaming services.

The latest deal comes in light of Orange Egypt landing the tender for national roaming services that Telecom Egypt issued to all mobile network operators due to the impending expiration of the current agreement. The new agreement provides a number of competitive, technical and commercial advantages that will boost the development of Telecom Egypt's services and enhance its position in the Egyptian mobile market.

The five-year agreement, which extends until the end of 2027, will ensure that Telecom Egypt continues to provide high-quality voice and data mobile network coverage to its customers nationwide.

Adsero team was led by **Ahmed Abdelgawad** (partner and co-head of m&a and capital markets practice, pictured), assisted by **Nariman Roushdy** (senior associate) and **Nayera Hassan** (junior associate).
